COURSE NAME and DESCRIPTION CHANGES

NUR 806 – Effective Spring 2017 – IMPORTANT TO KEEP OLD INFORMATION THRU FALL 2016
Course was taught in Fall 2016 using current information; taught in Spring 2017 with new information – make sure to include appropriate effective dates on Banner

Current Name–Advanced Adult/Geriatric Nursing III.
Current Description -- This is the third course in the series. This course continues to focus on synthesis and application of more complex theory and research to effectively address the complexities of aging. Comprehensive evidence based management across settings, evaluation of care, role implementation, and influences of contextual factors on health care services for the elderly including palliative and end of life care are presented. This course provides the knowledge base for clinical gerontological management.
Current Prerequisite: NUR 804, 805.

Proposed Name – Research Design and Methods
Proposed Course Description -- This course is designed to provide the student with knowledge, skills, and practice in collecting, analyzing, and interpreting quantitative data within the context of application to research design and methodology. The following advanced statistical techniques will be examined: analysis of variance (ANOVA/MANOVA), analysis of covariance (ANCOVA/MANCOVA), use of psychometric techniques (for instruments used in patient care, nursing education and nursing research), linear regression, multiple regression, logistic regression, and structural equation modeling (SEM).

Note: Use of same course number with two different courses/content was vetted and okayed by the Registrar 2/6/2017. Appropriate effective dates may be included in Banner.
